 [fekadu-wolde-11ab94193](https://www.linkedin.com/in/fekadu-wolde-11ab94193)

Professional Summary

Dedicated Physics Educator and System Developer with **18+ years** of experience in Ethiopian secondary schools, combining a strong foundation in theoretical physics with practical expertise in full-stack development and system automation. Holds an **MSc in Quantum Optics** from Addis Ababa University and a BSc in Physics from Haramaya University.

Passionate about bridging the gap between physics, technology, and education. Proven track record of developing innovative automation systems, including a student report management system recognized by schools and the Education Office. Combines teaching excellence with technical skills in Python, JavaScript, PowerShell, and Excel automation.

Core Competencies

Teaching & Leadership	Technical & Programming	Systems & IT
Physics Teacher (18+ years)	HTML (Advanced)	Computer Hardware Repair
Curriculum Development	JavaScript (Intermediate)	System Maintenance
Department Leadership	PowerShell (Intermediate)	IT Troubleshooting
Staff Training & Coordination	Excel Automation (Expert)	Performance Optimization
Science & Technology Club	Data Analysis (Advanced)	Diagnostic Tools
Student Mentorship	HTML/CSS (Intermediate)	Registry Management

Professional Experience

Physics Teacher & Department Head

Ethiopian Secondary Schools

September 2007 – Present

- Led the physics department, managing curriculum development and implementation across multiple schools.
- Integrated technology into physics teaching, significantly improving student engagement and learning outcomes.
- Coordinated staff training programs and academic initiatives for fellow educators.
- Managed the Science, Technology, and Innovation Club, fostering student interest in STEM fields.
- Served as head of the physics department, overseeing 5+ teachers and departmental resources.
- Taught physics to thousands of students across 18+ years, from introductory to advanced levels.

System Developer & IT Consultant

Freelance & Contract

2020 – Present

- Designed and developed an automated student report management system using Excel and web-based technologies, recognized by multiple schools and the Education Office for improving administrative efficiency.
- Built a comprehensive PowerShell Toolkit for advanced system repair, maintenance, and performance optimization, used in 50+ computer repair sessions.
- Provided professional computer repair and system maintenance services for schools and individuals.
- Developed custom automation solutions for academic environments, streamlining administrative workflows.
- Created Excel automation scripts for data analysis and reporting, reducing manual workload significantly.

Education

Master of Science (MSc) in Physics (Quantum Optics)

Addis Ababa University, Ethiopia

February 2016

- Research focused on quantum optical systems and their applications.
- Developed advanced analytical and problem-solving skills in theoretical physics.

Bachelor of Science (BSc) in Physics

Haramaya University, Ethiopia

July 2007

- Comprehensive study of classical and modern physics.
- Foundation in mathematical modeling and experimental design.

Key Projects

Student Report System

Technologies: Excel VBA, JavaScript, HTML/CSS, SQLite

- Developed a comprehensive Excel & web-based system for managing student results, automating grade analysis, and generating custom reports.
- Features: Automated grade calculation, dynamic report generation, web-based interface, Excel integration.
- **Impact:** Reduced administrative workload by 60%, improved report accuracy, adopted by 5+ schools across Ethiopia, recognized by the Education Office.

PowerShell Toolkit

Technologies: PowerShell, Windows API, Batch Scripting, WMI

- Created an advanced system repair and maintenance toolkit that automates common IT tasks, system diagnostics, and performance optimization.
- Features: One-click repair, automated system health checks, comprehensive logging, modular design.
- **Impact:** Reduced system repair time by 70%, successfully used in 50+ repair sessions.

Achievements & Recognition

- **Recognized Student Report System:** Developed an automated reporting system that received official recognition from multiple schools and the Education Office.
- **18+ Years Teaching & Leadership Experience:** Proven track record of educational excellence and department management.
- **Head of Physics Department:** Led curriculum development, teacher training, and departmental operations.
- **Science & Technology Club Management:** Successfully organized STEM activities and competitions for students.

Professional Development

- Continuous learning in full-stack web development and system automation.
- Active member of physics education and technology integration communities.
- Regular contributor to educational technology initiatives in Ethiopian schools.

Languages

Amharic	Native
English	Fluent (Professional working proficiency)
Afan Oromo	Fluent (Professional working proficiency)
